

## CUSTOMER CASE STUDY

### *Rutherford County Detention Center*

#### Customer Profile

*Company Name:* Rutherford County Detention Center

*Industry:* Government Municipality

*Location:* Rutherfordton, NC

*Customers Served:* Detention Center Staff

#### Situation

The Rutherford County Detention Center needed to extend their use of video surveillance throughout the jail for incident recording, officer safety. Additionally, some of their older analog cameras needed to be replaced with more modern digital IP cameras.

#### Solution

DoubleRadius conducted an onsite survey to define the amount of ip video cameras and cabling required for the defined coverage area. DoubleRadius then designed a solution comprised of 73 AXIS Communications fixed network standard and dome IP cameras, and an ipConfigure video management system. As the needs dictated, some cameras included special features such as: Vandal-resistant housing, ultra-discreet recessed mounting, day and night functionality, digital pan/tilt/zoom, HDTV or megapixel resolution, and POE (Power Over Ethernet). The installation was then rolled out in three phases.

#### Results

Since the installation was completed, the Rutherford County Detention Center has already recorded two incidents which have been used in court. More videos covering a larger area represents more opportunities to keep both the law enforcement staff and the inmates in view and therefore in a safer environment.

## WE'VE GOT YOU COVERED

### DoubleRadius Overview

DoubleRadius is Your One-stop Shop for Networking and Communications! Our staff will walk you through from conception to deployment, assuring that all the details are covered. Our staff will help you select the appropriate equipment, choose a financing program that fits your budget if necessary, and provide the pre and post-sales support you need to operate a successful network. Additionally, DoubleRadius offers training opportunities at our facility and at the annual Wireless Without Limits conference cruise.

- 1** Consulting Design
- 2** Installation Deployment
- 3** Ongoing Support Management

### DoubleRadius Financing

DoubleRadius offers you the unique opportunity to acquire all the wireless equipment and services you need while preserving your cash flow. Now, we also offer you the convenience of calculating standard 12, 24, 36, 48, or 60 month leases online. (First and last month payments are required in advance, and there is a \$1 buyout for equipment.)

Plus take advantage of our custom financing programs:

- » Baker's Dozen Program
- » 90 Day Deferred Program
- » 6 x \$99 Lease Program
