

CUSTOMER CASE STUDY

Forest City

Customer Profile

Company Name: Town of Forest City

Industry: Government Municipality

Location: Forest City, NC

Customers Served: Residents of Forest City

Situation

The Town of Forest City needed a town wide WIFI solution for Economic Development, Public Safety and Municipal use as well as a ten year technology plan.

Solution

DRTS conducted an on site survey and interviewed the City leaders in each department to assess where they are in their vision and determine what technology is needed to accomplish their vision of a growing city with superior infrastructure that supports business and growth. While, streamlining their communication costs and promote public safety.

Results

DRTS implemented a Meraki solution throughout the town enabling communication and multiple vlans including a guest ssid for public use. DRTS also delivered a ten year technology plan and is continuously helping build out both video surveillance data and network solutions in phases to reach their vision of being a cutting edge city with a superior infrastructure that draws businesses to the area, promotes tourism, provides superior public safety in five years.

Cloud Managed Access Point

Customer Testimonial

“DoubleRadius has come to our rescue on several occasions. We wanted to provide Wi-Fi to our downtown area. They designed a solution and installed products quickly. They also created a technology plan that allows us to extend our system and make improvements over the next few years. They have a vast array of products and knowledge. A very professional and quality company with dedicated staff.”

- Bruce Ownebey, Forest City

WE'VE GOT YOU COVERED

DoubleRadius Overview

DoubleRadius is Your One-stop Shop for Networking and Communications! Our staff will walk you through from conception to deployment, assuring that all the details are covered. Our staff will help you select the appropriate equipment, choose a financing program that fits your budget if necessary, and provide the pre and post-sales support you need to operate a successful network. Additionally, DoubleRadius offers training opportunities at our facility and at the annual Wireless Without Limits conference cruise.

- 1** Consulting Design
- 2** Installation Deployment
- 3** Ongoing Support Management
