

# Owl at the Moon

*Design courtesy of Bisque Imports*

Whoohoo! Whoohoo! Make this cute and trendy little guy for all the Halloween lovers out there!

## MATERIALS

CF-2702-F Orange Opal Fine  
GBITS-210-71 Ivory Bits  
GBLOC1009 Black Blocks  
GBLOC226-74 Amazon Green Opaque Blocks  
GBLOCK170.2 Tangerine Blocks  
GBLOCK238-72 Alpine Blue Blocks  
GP1009 Black Pebbles  
GBS-12-005 Clear White Streaky Glass Blank  
S200-96 White Stringers  
M-2007 White Millefiori

## SUPPLIES

1" Running Pliers  
Elmer's Gel Glue  
Pistol Grip Glass Cutter  
Ruler  
Sharpie  
Small Plastic Cups  
ST540 Thinfire Paper  
ST352 Wheel Mosaic Cutter  
Wooden Skewers

## INSTRUCTIONS

1. First, cut the Clear and White Streaky Glass Blank into an 8 inch square.

2. Using a Sharpie, draw the owl's body onto the Alpine Blue Block. The bottom of our owl is about 1.5 inches wide, and the top is about 3 inches wide. He is approximately 3.5 - four inches tall. We added a curve on either side to make him a bit round. We also curved in on the top piece to create ears.

3. Once you have cut out your owl, attach it to the bottom right area of the blank with glue.

4. Cut a triangle about 2 inches wide by 2 inches tall (at the widest point) out of the Black Block. Cut a small strip a little bit longer than the triangle to be used as the bottom rim of the hat.

5. Once you are done creating the hat, draw and cut out two small wings from the Amazon Green Block. We drew them like leaves. Once cut, glue down. Cut out two more tiny strips to fit on top of the owl's witch hat.

6. Now it's time to make the moon! Draw a skinny moon on the Tangerine Block. Feel free to make as large or small as you want! Cut out the moon then glue onto the blank.

7. Sprinkle Orange Opal Fine Frit on top to create texture. Using the Tangerine scraps from the moon, cut out two small strips to fit on top of the witch hat and for his nose. Attach with glue.

8. Using the White and Black Stringers, cut down and decorate owl. Place stringers on top of belly, ear, and wings.

9. Use four Ivory Bits to create the eyes. Place one bit down on the left and right. Glue down. Next, take two more bits, rotate forty-five degrees and glue down on top of the other Bits. Once fused together, this will create a circle.

10. Cut one Black Pebble in half with the Wheel Mosaic Cutter. Use each half to create the owl's feet. Cut a Black bit in half. Then, cut the smaller pieces in half once more to create pupils for the eyes. Glue down onto the center of the Ivory Bits.

12. Attach Millefiori pieces with glue down all over the blank to look like stars in the night sky.

13. Once complete, fire to a Contour Fuse.
