

Conflict Minerals

From: Quality Assurance, CAIG Laboratories, Inc.
Subject: Conflicting Minerals Compliance Statement

Dear Valued Customer:

The United States Congress passed legislation in July of 2010 requiring corporations to report the use of "Conflict Minerals" in the manufacture of their products. The current law, generally referred to as the "Conflict Minerals Law", was included as Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, passed by the US Senate on May 20, 2010 and signed by President Barack Obama on July 21, 2010.

"Conflict Minerals" in this context refers to specific minerals originating from mines controlled by armed groups in the Democratic Republic of the Congo or adjoining countries. The specific metals in question are: Gold, Tantalum, Niobium, Tin, Iron, Manganese, and Tungsten.

CAIG is in full compliance with this legislation. We have received statements from suppliers who ensure they are not sourcing raw materials from these restricted countries.

Should you have additional questions, please contact CAIG Labs at info@caig.com or (858) 486-8388.
