**Eye**

**Eye Irritation:** Draize test indicated 1 on Draize Scale - a very mild eye irritant. May cause mild irritation and redness.

**Chronic**

Prolonged contact may cause slight irritation or redness for a small number of people.
**FIRST AID**

*Swallowed*
If swallowed, give a glass of water.

*Eye*
If in contact with the eyes, hold eye open and flush out the eye - especially under the eyelids with fresh water or saline solution. Seek medical attention if any irritation continues.

If irritation occurs, discontinue use and wash off with fresh water.

*Inhalation*
Not applicable.

*Other*
Melaleuca Oil is generally considered a non-irritant in inert formulas at 1% concentration, and considered nontoxic at levels of less than 25% concentration. Industry studies indicate allergic reaction to products containing less than 10% Melaleuca Oil is extremely rare, but when reported usually involves some redness and stinging of the skin.
