

See What God Made Nursery Curriculum

See What God Made can help transform your nursery into a life-changing ministry! We've put together a few tips to help guide you in implementing this curriculum. Follow these simple steps and you are off to a great start!

1. Save the box!

The box that holds *See What God Made* doubles as your "Big Bible." The Big Bible box has cutout tabs below the outer flap to hold each lesson's Teaching Picture. Open the "cover" to display the picture inside the Bible. This important visual aid will help infants and toddlers begin to connect your lessons to the Bible.

2. Play the CD

At the eleventh hour, God led us to an exquisite album of Scripture-based lullabies—*Hidden in My Heart* from Breakaway Music. We are including this CD in every box at no extra charge. Perfect for gentle background music, you will fall in love with this album. You can order more copies at scripture-lullabies.com.

3. Gather the toys

Each lesson suggests small objects for your children to interact with. Collect as many of the suggested items as you can and keep them in a large plastic bin or set of bins. Your volunteers will be able to gather what they need quickly and easily.

4. Decorate your room

Each week, put up bright, colorful decorations themed around the lesson. They can be as simple as construction paper cutouts or as elaborate as you can manage. The more items you can put up, the better. As children arrive, show them the decorations to reinforce the lesson and to distract them as they transition from parents to teacher.

5. Use the posters

See What God Made includes two sets of **Raising Godly Children** parent posters—*What Babies Really Need* and *What Toddlers Really Need*. These brochures useful posters outline spiritual development milestones and activities for children.

- Laminate the posters or cover on both sides with Clear Con-Tact® Cover paper for durability. Laminating makes cleaning easier (bleach and water solution).
- Display both posters (*Your Baby's Growth* and *Your Toddler's Growth*) in your nursery—attractive additions that provide caregivers with helpful information.
- Display the posters at an adult's eye level for the parents to view as they bring their children to your nursery.
- Purchase enough **Raising Godly Children** brochures so that each nursery room has its own supply. Make sure that every child's parent/caregiver has one!

6. Display the pictures

Find a wall on your room to display the Teaching Pictures from the current quarter. Children will enjoy reviewing past weeks and your oldest ones will begin to recognize the patterns associated with each quarter sequence.
