

One of a Kind

Design courtesy of Bisque Imports

These cute, textured snowflake ornaments are handmade in the USA. With a one of a kind design on every ornament, the design opportunities are endless!

MATERIALS

3000 Let it Snow Ornament (4)
9599 Hydra Art Sponge
AS964 No Fire Snow
CN142-8 Bright Aqua
CN151-8 Light Blue Spruce
CN244-8 Really White
CN302-8 Bright Caribbean
CN502-8 Neon Blue
SY546-4 Duncan Fired Snow

SUPPLIES

Assorted Royal Aqualon Brushes
Toothbrush
Water

INSTRUCTIONS

1. Lightly wipe ware with a damp sponge to prepare surface for painting.
2. Use a sponge to add 3 coats of color to the surface of each ornament. Apply light pressure with each coat so that the embossed snowflake designs remain unpainted white. For this project, we used Bright Aqua, Light Blue Spruce, Bright Caribbean, and Neon Blue. Let dry.
3. Use a toothbrush to speckle paint each ornament surface with Really White. Dip the toothbrush into the paint, then run your thumb across the bristles to speckle paint. Let dry.
4. Add Duncan Fired Snow to the edges of each ornament to give the edge a snowy texture. Apply the Fired Snow with “fluffing” brushstrokes to enhance texture. Let dry.
5. Once complete, dip each piece in Pure Brilliance and fire to Cone 06.

TIP: Rather than applying the Fired Snow before firing, you can also use No Fire Snow to add a snowy texture post-firing!
