| <input type="checkbox"/> 1 CARPORT BODY | <input type="checkbox"/> 2 STAFF POLES |
| <input type="checkbox"/> 1 STRAIGHT FIBERGLASS POLE WITH HOOK & LOOP STRAPS | <input type="checkbox"/> 1 SMALL STAKE SACK CONTAINING: <ul style="list-style-type: none">• ALUMINUM TENT STAKES• GUYLINES• INSTRUCTIONS |

SAFETY INFORMATION

-IMPORTANT-

Read, and follow, all instructions before assembling and using!

WARNINGS

SAFETY WARNING

DOs AND DO NOTs

Everyone who uses this shelter should read this manual and become familiar with all safety warnings and precautions for safe use, assembly, care, maintenance, and storage. Keep this manual so you can refer to it later.

-  **DANGER** indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.
-  **WARNING** indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.
-  **CAUTION** indicates a potentially hazardous situation which, if not avoided, could result in property damage.

DANGER

FLAMMABILITY WARNING

KEEP ALL FLAME AND HEAT SOURCES AWAY FROM THIS TENT FABRIC. This tent is made with flame resistant fabric which meets CPAI-84 specifications. IT IS NOT FIREPROOF. The fabric will burn if left in continuous contact with any flame source. The application of any foreign substance to the tent fabric may render the flame-resistant properties ineffective. For these reasons:

- DO NOT use matches, lighters, stoves, heaters, grills, lanterns, candles, cooking equipment, vehicles, or other fuel-burning devices inside or near a shelter.
- DO NOT build fires under or near a shelter.
- DO NOT leave campfires unattended.

Your failure to follow this warning will cause death, serious injury, or permanent disability to you or others.

SAFETY INFORMATION

-IMPORTANT-

Read, and follow, all instructions before assembling and using!

WARNINGS

DANGER

CARBON MONOXIDE GAS WILL KILL YOU

Stoves, heaters, grills, lanterns, candles, and other fuel-burning devices that burn propane, natural gas, charcoal, kerosene, coal, gasoline, or other fuels produce a toxic gas called carbon monoxide. Because carbon monoxide gas is invisible, odorless, and colorless, a dangerous level of carbon monoxide gas can accumulate in a tent which cannot be detected by sight, smell, or taste.

When breathed in even small quantities, carbon monoxide is absorbed into the bloodstream, replacing and reducing the oxygen in the bloodstream and causing carbon monoxide poisoning and suffocation, which will cause death, serious injury, or permanent disability. Exposure to high concentrations of carbon monoxide for even a few minutes will also cause death, serious injury, or permanent disability. For these reasons:

- DO NOT use stoves, heaters, grills, lanterns, candles or other fuel-burning devices inside or near a shelter.
- DO NOT leave your vehicle running while using your shelter.

Your failure to follow this warning will cause death, serious injury, or permanent disability to you or others.

DANGER

SUFFOCATION HAZARD

Any tent or shelter must be properly ventilated in all weather conditions to allow sufficient airflow into and out of the carport. If airflow into and out of a carport is obstructed (for example, if heavy snow obstructs the air flow) you and other persons will suffer from lack of oxygen and suffocate, resulting in death, serious injury, or permanent disability. For these reasons:

- DO clear snow or other materials away from a shelter frequently.
- DO NOT use stoves, heaters, grills, lanterns, candles or other fuel-burning devices inside or near a shelter (SEE CARBON MONOXIDE WARNING ABOVE).

Your failure to follow this warning will cause death, serious injury, or permanent disability to you or others.

SAFETY INFORMATION

-IMPORTANT-

Read, and follow, all instructions before assembling and using!

WARNINGS

DANGER

SEVERE WEATHER HAZARD

In some climactic conditions (for example, severe storms, high winds, or heavy snow cover), stakes and guy cords may not be sufficient to anchor a carport securely, which could result in the carport being picked up or blown away, causing death, serious injury, or permanent disability. Under such conditions:

- DO use supplemental means to securely anchor the shelter, for example, snow pegs, skis, and/or heavy rocks or other heavy objects.
- DO seek appropriate shelter, for example, in a house, cabin, building, or secure structure other than a shelter.

Your failure to follow this warning will cause death, serious injury, or permanent disability to you or others.

DANGER

PROTECT YOUR CHILDREN

Children will not understand and appreciate the FIRE, CARBON MONOXIDE POISONING, SUFFOCATION, AND SEVERE WEATHER hazards described above and will not know how to avoid or respond to these hazards if no adults are present. For this reason:

- DO NOT leave children unattended inside a shelter or in camp.
- DO NOT allow children to assemble a shelter.
- DO NOT allow children to enter or exit a shelter except through the door.
- DO NOT allow children to remain in a closed-up shelter on hot days.

Your failure to follow this warning will cause death, serious injury, or permanent disability to you or others.

SAFETY INFORMATION

-IMPORTANT-

Read, and follow, all instructions before assembling and using!

WARNINGS

WARNING

WIND HAZARD

In windy conditions, stakes, guy cords, and roof attachments may not be strong enough to hold the shelter securely to the ground or your vehicle, which could result in death, serious injury, or permanent disability to the user and serious damage to your vehicle. If such conditions exist:

- DO use supplemental means to anchor the shelter such as rocks or sandbags.
- DO attach the shelter securely to your vehicle following the included instructions.
- DO NOT use shelter in cases of strong winds.
- DO take the shelter down if hazardous conditions exist.

Your failure to follow this warning could cause death, serious injury, or permanent disability to you or others.

CAUTION

- DO attach shelter directly to roof rack or factory-installed roof rails only.
- DO save and keep instructions for future use.
- DO remove shelter from vehicle prior to moving the vehicle.
- DO NOT operate vehicle while shelter is attached.
- DO NOT open car door while shelter is attached as it may cause damage to vehicle or shelter.

Your failure to follow these warnings may cause permanent damage to your vehicle.

SETTING UP YOUR CARTARP

- 1. Assemble all the poles manually (figures 1A, 1B and 1C).** DO NOT allow the shockcord snap the pole sections together, this can damage the poles.

Figure 1A

Figure 1B

Figure 1C

- 2. Spread the CarTarp body on the ground. Lay the top pole (with the hook and loop straps) parallel to the top of the CarTarp (figure 2).**

Figure 2

- 3. Insert the hook located on the black webbing at the top corner of the CarTarp to the ferrel on the end of the top pole (Fig. 3A and 3B).** Repeat for the other hook and end.

Figure 3A

Figure 3B

4. Attach the short hook and loop tabs located on the top side of the CarTarp to the top pole (Fig. 4).

Note: Make sure the longer hook and loop straps (attached to the short pole) are spaced evenly across the short/top pole, making sure that a long velcro strap is on the outside of both short hook and loop straps.

Figure 4

5. Grab the top pole and carry the CarTarp to the side of the vehicle you want to attach it to, either the side or back of the vehicle.

Note: The vehicle must either have factory installed rails or an after market roof rack.

6. Use the long hook and loop straps to secure the top pole to the rack or rails.

Notes:

- This is most easily performed by simply wrapping the straps around the bars.
- D-rings provide extra ways to attach the straps.

7. Insert gold pole tips into the grommets at the ends of the center seam of the tarp (Fig. 7A), and raise the CarTarp. Using the included guylines, tie two from the tip of the staff poles and stake about 6 ft. out at a 45° angle (Fig. 7B). Stake tarp corners (7C).

Note: The poles can also be placed at the outside corners.

8. Pull cords tight and make adjustments if needed.

STAKING TIPS

THE BEST WAY TO USE ROCKS FOR STAKING AND GUYING OUT IN ROCKY TERRAIN (OR ON PAVEMENT) IS TO FIND ONE LARGE AND ONE SMALL ROCK. TIE A PIECE OF CORD FROM YOUR STAKE OR GUY-OUT POINT AROUND THE SMALL ROCK, SET THE LARGE ROCK ON TOP OF THE CORD RIGHT NEXT TO THE SMALL ROCK, PULL BACK UNTIL IT'S TIGHT.

NOTES & TIPS

- **DO** attach the shelter securely to your vehicle following the included instructions.
- **DO** use supplemental means to anchor the shelter such as rocks or sandbags.
- To minimize UV damage from the sun, **DO NOT** keep the shelter set up for long periods of time or when not in use.
- **DO** use guylines to further secure the shelter.
- In case on light winds, consider using your vehicle as a windbreak.
- Tarp can also be used without poles by using guylines and trees.

WARRANTY

KELTY Lifetime Warranty

Kelty takes pride in its workmanship and undertakes to manufacture the best possible products. Kelty products are covered under warranty, to the original owner, for the lifetime of the product, against defects in materials or workmanship. Since no Kelty product is indestructible, Kelty's warranty does not cover defects attributable to or resulting from normal wear and tear (ie: exhausted zippers), natural hazard damage (ie: weather, animals, ultraviolet [UV] damage on tents), abuse or alteration.

All products being returned require a Return Authorization number. Service under our warranty is available to the original purchaser by returning the product to any authorized Kelty dealer or by contacting our customer service department at 1-866-349-7225 (1-866-FIX-PACK) for a Return Authorization number.

If, after inspection, we determine that the product is defective, we will repair or replace it at our discretion, free of charge. If your Kelty product needs service or repair that is not covered under warranty, we will provide the necessary service at a reasonable charge.

This warranty gives you, the original purchaser, specific legal rights. You may also have other rights, which vary from state to state.
