4. Reposition stencil to add additional citrus slice impressions around the frame using an assortment of Bright Straw, Light Kiwi, and Neon Orange.
5. On your pallet, add water to each citrus color - Bright Straw, Light Kiwi, and Neon Orange - to create diluted color washes.
6. Overlay each Bright Straw citrus design with 1 coat of the Neon Orange color wash.
7. Overlay the Neon Orange citrus design with 1 coat of the Bright Straw color wash.
8. Over the Light Kiwi citrus design with 1 coat of the Light Kiwi color wash. Let dry.
9. Paint the remaining area of the background with 3 coats of Light Blue Spruce, and allow time to dry.
