

Sandy Shores

Design courtesy of Bisque Imports

Capture the spirit of the seashore with these beachy rim plates. Decorate your favorite, or all four designs to create a summer serving dinnerware set!

MATERIALS

2468 Rim Coral Plate
2469 Rim Starfish Plate
2470 Rim Crab Plate
2471 Rim Seahorse Plate
CN043-8 Dark Papaya
CN062-8 Bright Coral
CN151-8 Light Blue Spruce
CN506-8 Neon Coral
FD258 Pure White

SUPPLIES

Assorted Paintbrushes
Liquid Dish Soap
Saran Wrap (for easy clean-up)
Small Cup
Spoon
Straw
Water

INSTRUCTIONS

1. Lightly wipe each plate with a damp sponge to prepare surface for painting.
2. Bubble paint each plate design: In a small paper cup, mix equal parts liquid dish soap, Light Blue Spruce, and water. Stir until you see bubbles forming. With a straw, blow into the mixture, making sure the cup remains in an upright position. Allow bubbles to overflow onto the bisque surface. When the entire surface is covered, allow bubbles to pop on their own. Repeat as desired, then allow project to dry completely.
3. Using a square brush, paint the rim of each plate with 3 coats of Dark Papaya.
4. Using a square brush, add thick stripes along the rim of each plate using 3 coats of Bright Salsa.
5. On the Starfish Rim Plate, use a liner brush and 3 coats of Dark Papaya to fill in the embossed spine lines. Let dry.
6. Paint the silhouette shape design on each plate with 3 coats of Neon Coral. Let dry.
7. Use Pure White French Dimensions to add accent dots to each shape design, as desired.
8. Allow each plate to dry completely, then dip in Pure Brilliance and fire to Cone 06.
