PRESS RELEASE

**Seal Shield Introduces iPad Keyboard and Case for Healthcare.
Product Repels Liquid And Features Antimicrobial Protection.**

*Healthcare company introduces New Wireless Keyboard for iPad at
the HiMSS Healthcare Conference (Booth 3911)*

Orlando, FL (February 21, 2011) – Seal Shield LLC today announced the new SILVER BLUE™ Bluetooth wireless keyboard and case for the iPad. The product has been designed specifically for healthcare and addresses infection control concerns over iPad use in hospital settings.

The Seal Shield™ SILVER BLUE™ keyboard is constructed of medical grade silicone, which is resistant to liquids including blood and bleach. Additionally, the SILVER BLUE™ keyboard is protected with a silver based, antimicrobial additive that resists mold, mildew, fungi and microbial bacteria growth on the product's surfaces. The Seal Shield™ SILVER BLUE™ keyboards are easy to clean with sprays or wipes. Regular cleaning with healthcare grade disinfectants can help prevent the spread of germs, viruses and bacteria, which are known to harbor on frequently touched surfaces.

The SILVER BLUE™ keyboard comes in black with an integrated luxury style folio case. The keyboard is medical grade and features Bluetooth V2.0 wireless technology and an integrated, rechargeable, lithium battery for 100 day standby time. The case is soft and supple with top grade finish and black matched stitching for a professional look and feel. Seal Shield will be demonstrating the new SILVER BLUE™ at the international HiMSS Healthcare Conference in Orlando, FL, February 21st-24th 2011. The product is currently in stock with pricing of \$89.99 MSRP.

Seal Shield™ designs, develops and manufactures medical grade, infection prevention technology for hospitals and the home. The products are distributed by CDW, DELL, PC Connection, MicroAge, New Age Electronics, The Source, Keyboard Company, GETT and other reseller partners.
