**PRESS RELEASE**

**Seal Shield Introduces Second Generation Silicone Keyboards That Are Antimicrobial product protection, Backlit, 100% Waterproof and Dishwasher Safe.**

*Healthcare company introduces New Waterproof Keyboards at the APIC Infection Control Conference (Booth 1541)*

**New Orleans, LA (July 12, 2010)** – Seal Shield LLC today announced the new SEAL TOUCH GLOW 2™ Waterproof, Backlit Keyboards. The product features an integrated Touch Pad pointing device and uses second generation, LED backlight technology and the company's exclusive waterproof and antimicrobial product protection. The Seal Shield™ SEAL TOUCH GLOW 2™ keyboards are easy to clean. Regular cleaning in the sink or dishwasher can help prevent the spread of germs, viruses and bacteria, which are known to harbor on frequently touched surfaces.

The SEAL TOUCH GLOW 2™ has been created to help reduce the risk of worldwide cross contaminations, including H1N1, Norovirus and the "superbug," MRSA. Dr. Charles Gerba, University of Arizona, tested numerous common touch surfaces and found keyboards to be a major bacteria harbor with 400 times more bacteria than the average toilet. Unlike any other keyboards, the Seal Shield™ SEAL TOUCH GLOW 2™ combines Seal Shield™ waterproof technology and SILVER SEAL™ technology for antimicrobial product protection of the product, making it dishwasher safe and resistant to mold, mildew and odor causing bacteria.

The SEAL TOUCH GLOW 2™ is designed with medical grade silicone so it can be easily disinfected with sprays or wipes. Or wash it in the dishwasher or sink! The keyboards feature an integrated touch pad pointing device, 24K Gold USB connector, and Quick Connect™ USB cable. The keyboards are available in black and white colors with LED backlighting for low light conditions.

SEAL SHIELD™ will be demonstrating the new SEAL TOUCH GLOW 2™ at the international APIC Infection Control Symposium in New Orleans, Louisiana July 11<sup>th</sup>-14<sup>th</sup>. The product is currently in stock with pricing of \$149.99 MSRP.

Seal Shield™ designs, develops and manufactures medical grade, infection prevention technology for hospitals and the home. The products are distributed by CDW, DELL, PC Connection, MicroAge, New Age Electronics, The Source, GE Healthcare, Keyboard Company, GETT and other reseller partners.
