

Battery Safety Charge Sack

Important Safety and Usage Notes

Thank you for purchasing your Bias Battery Safety Charge Sack. Please read and understand these directions before use. If you have any questions please contact our customer service department by phone at **1-800-705-0620** or email us at **customerservice@atomikrc.com**.

***NOTE* The Bias Battery Safety Charge Sack is intended to contain a battery fire, but does not guarantee the total protection of surrounding surfaces. Always charge and store batteries on a non-flammable surface away from any combustible materials.**

Safety Guidelines

- 1) Always use a charger specifically designed for Lithium Polymer batteries. Never use NiCD or NiMH type chargers to charge LiPo, Li-ion or LiFe batteries. Failure to do so will damage the batteries and may cause fire and personal injury.
- 2) Always charge batteries in a Bias Battery Safety Charge Sack. Do not charge batteries on wood, cloth, carpet, in your model, in your car, or any other flammable material. Keep a chemical fire extinguisher near by in case of fire.
- 3) Never leave batteries unattended while charging. Always observe batteries when charging so that you may react quickly to any problems that may occur.
- 4) If a battery is deformed, swollen, or appears damaged, DO NOT CHARGE. Follow the disposal instructions that were included with your battery.

Battery Safety Charge Sack Usage Instructions

- 1) Connect the battery to be charged to your charger. Check that the polarity is set properly.
- 2) Set the charge rate on the charger to the correct rate for the battery pack.
- 3) Place the battery into your Bias Battery Safety Charge Sack.
- 4) Place Battery Safety Charge Sack on non-flammable surface.
- 5) Close the flap on the Battery Safety Charge sack, pressing on the snaps to ensure that it is fully closed.
- 6) Start the charger and observe the charge process.
- 7) When charging is complete remove the battery from the Battery Safety Charge Sack.

Free Replacement Guarantee

If your Bias Battery Safety Charge Sack becomes damaged from a battery failure, contact Customer Service with proof of purchase and we will replace it free of charge.
