

**IMPORTANT INFORMATION REGARDING
THE STORAGE PODS**

**Important,
OEM Paint Colors & Finish**

While every effort is made to accurately match OEM paint colors, due to paint color variations at the OEM level, of as much as 10% between production runs, an EXACT paint match with our product is not always possible. Our goal is to provide a high quality paint finish at a reasonable price. As such, some minor finish imperfections may be expected.

Unpainted Pods

All storage pods are shipped assembled. Painting the pod typically requires disassembly and reassembly. For best results, some surface preparation such as sanding or filling may be required to remove minor blemishes, and the application of an adhesion promoter is also recommended prior to painting. Please consult your paint professional for details.

Important

Pods not receiving color paint should at least be treated with a UV protective clear coat.

Pricing Policy

All World Sport Performance Seat orders are entitled to a 30-day money back guarantee. All non-standard seat orders and painted parts (denoted with an asterisk) will be subject to a 10% re-stocking fee, if returned for a refund.
